Japan Synchrotron Radiation Research Institute (JASRI)

### **Additional Announcement on Measures for 2019 Novel Coronavirus (COVID-19)**

Dear All Users visiting SACLA for Experiments,

1. Please contact SPring-8/SACLA Users Office at least one day before your designated beamtime, if you decide to cancel your beamtime. There will be no cancellation charge. We kindly ask you to make your decision after considering your affiliation's policy and measures.
2. We strongly ask you to bring masks and wear it during your stay at SACLA. We also recommend hand-washing and hand disinfection with alcohol sanitizer. Alcohol sanitizers are available at the entrance of SACLA Experimental Facility, North Building, Cafeteria, SPring-8 Guesthouse, and so on.
3. Please consider to conduct your experiment with minimum number of participants required, ask BL scientists for available spaces and keep social distance during the experiment. Avoid staying longer than necessary in Sample Preparation Room/Experiment Preparation Room.
4. Please note that there will be possibility that User Support from BL scientists will be limited in order to prevent infections with users.
5. Please refer to [our previous announcement](#) and contact us immediately if you feel fever or any respiratory symptoms such as coughs after your arrival to SACLA.
6. Please note that there is a possibility that your experiment is suspended if any of your team members is suspected to be in close contact with COVID-19 patients even before the result of the PCR test is available. In addition, we ask you to manage travel plan to SPring-8 so that your team members travel independently to SPring-8 if possible. (see [WHO COVID-19 website](#))
7. We strongly ask you to make sure to take all experimental equipment, samples and wastes with you when you leave SACLA. If you have any inquires or concern, please contact SPring-8/SACLA Users Office.
